What is DVSA Safe Driving for Life?

The DVSA Safe Driving for Life programme is an initiative launched by the Driver and Vehicle Standards Agency (DVSA) in 2014. The programme is designed to help drivers of all ages and abilities to stay safe on the road. It provides a range of resources and training courses to help drivers improve their skills and knowledge.

Who is the programme aimed at?

The DVSA Safe Driving for Life programme is aimed at drivers of all ages and abilities. However, it is particularly relevant for the following groups of drivers:

- Older drivers: As drivers get older, their physical and cognitive abilities may decline. This can make driving more challenging and increase the risk of accidents. The DVSA Safe Driving for Life programme can help older drivers to stay safe on the road by providing them with training and resources to help them adapt to these changes.
- Young drivers: Young drivers are over-represented in road traffic accidents. This is due to a number of factors, including lack of experience, risk-taking behaviour, and peer pressure. The DVSA Safe Driving for Life programme can help young drivers to develop the skills and knowledge they need to stay safe on the road.
- Drivers with disabilities: Drivers with disabilities may face additional challenges when driving. The DVSA Safe Driving for Life programme can provide them with training and resources to help them overcome these challenges and drive safely.

What does the programme involve?

The DVSA Safe Driving for Life programme offers a range of resources and training courses to help drivers improve their skills and knowledge. These include:

- Online resources: The DVSA website provides a range of online resources, including videos, interactive games, and downloadable guides, to help drivers improve their skills and knowledge.
- Training courses: The DVSA offers a range of training courses for drivers of all ages and abilities. These courses cover a variety of topics, including defensive driving, hazard perception, and vehicle safety.

- Workshops: The DVSA offers a range of workshops for drivers who want to improve their skills in a specific area. These workshops cover a variety of topics, including driving in bad weather, driving at night, and driving on motorways.

How can I benefit from the programme?

The DVSA Safe Driving for Life programme can benefit drivers of all ages and abilities. By participating in the programme, drivers can:

- Improve their driving skills and knowledge
- Reduce their risk of being involved in a road traffic accident
- Increase their confidence on the road
- Stay independent for longer

How do I get involved?

To get involved in the DVSA Safe Driving for Life programme, simply visit the DVSA website. You can find more information about the programme, the resources available, and the training courses on offer. You can also book a training course or workshop online.

The DVSA Safe Driving for Life programme is an essential resource for drivers of all ages and abilities. By participating in the programme, drivers can improve their skills and knowledge, reduce their risk of being involved in a road traffic accident, and increase their confidence on the road. If you want to stay safe on the road, I encourage you to get involved in the DVSA Safe Driving for Life programme today.
