The conference will feature a variety of keynote speakers, panel discussions, and workshops. The keynote speakers will be leading experts in the field of sustainable agriculture, and they will share their insights on the latest research and trends in the field.

The panel discussions will focus on a variety of topics related to sustainable agriculture, including:

- The role of sustainable agriculture in climate change mitigation and adaptation
- The development of sustainable agricultural systems for food security
- The economic and social benefits of sustainable agriculture
- The challenges and opportunities for scaling up sustainable agriculture

The workshops will provide participants with the opportunity to learn more about specific aspects of sustainable agriculture. The workshops will be led by experts in the field, and they will cover a variety of topics, including:

- The design and implementation of sustainable agricultural systems
- The use of renewable energy in agriculture
- The management of water resources in agriculture
- The use of organic fertilizers and pesticides in agriculture

The First International Conference SSA 2024 is a unique opportunity to learn about the latest advances in sustainable agriculture. The conference will bring together leading experts in the field, and it will provide participants with the opportunity to network with other professionals in the field.
