## What is a Shape?

A shape is a two-dimensional figure that has a definite form and boundary. In other words, it's a flat figure that you can see and touch.

## Different Types of Shapes

There are many different types of shapes, but some of the most common ones include:

- **Circle:** A circle is a round shape that has no corners or edges. It is the shape of a ball, a coin, or a plate.

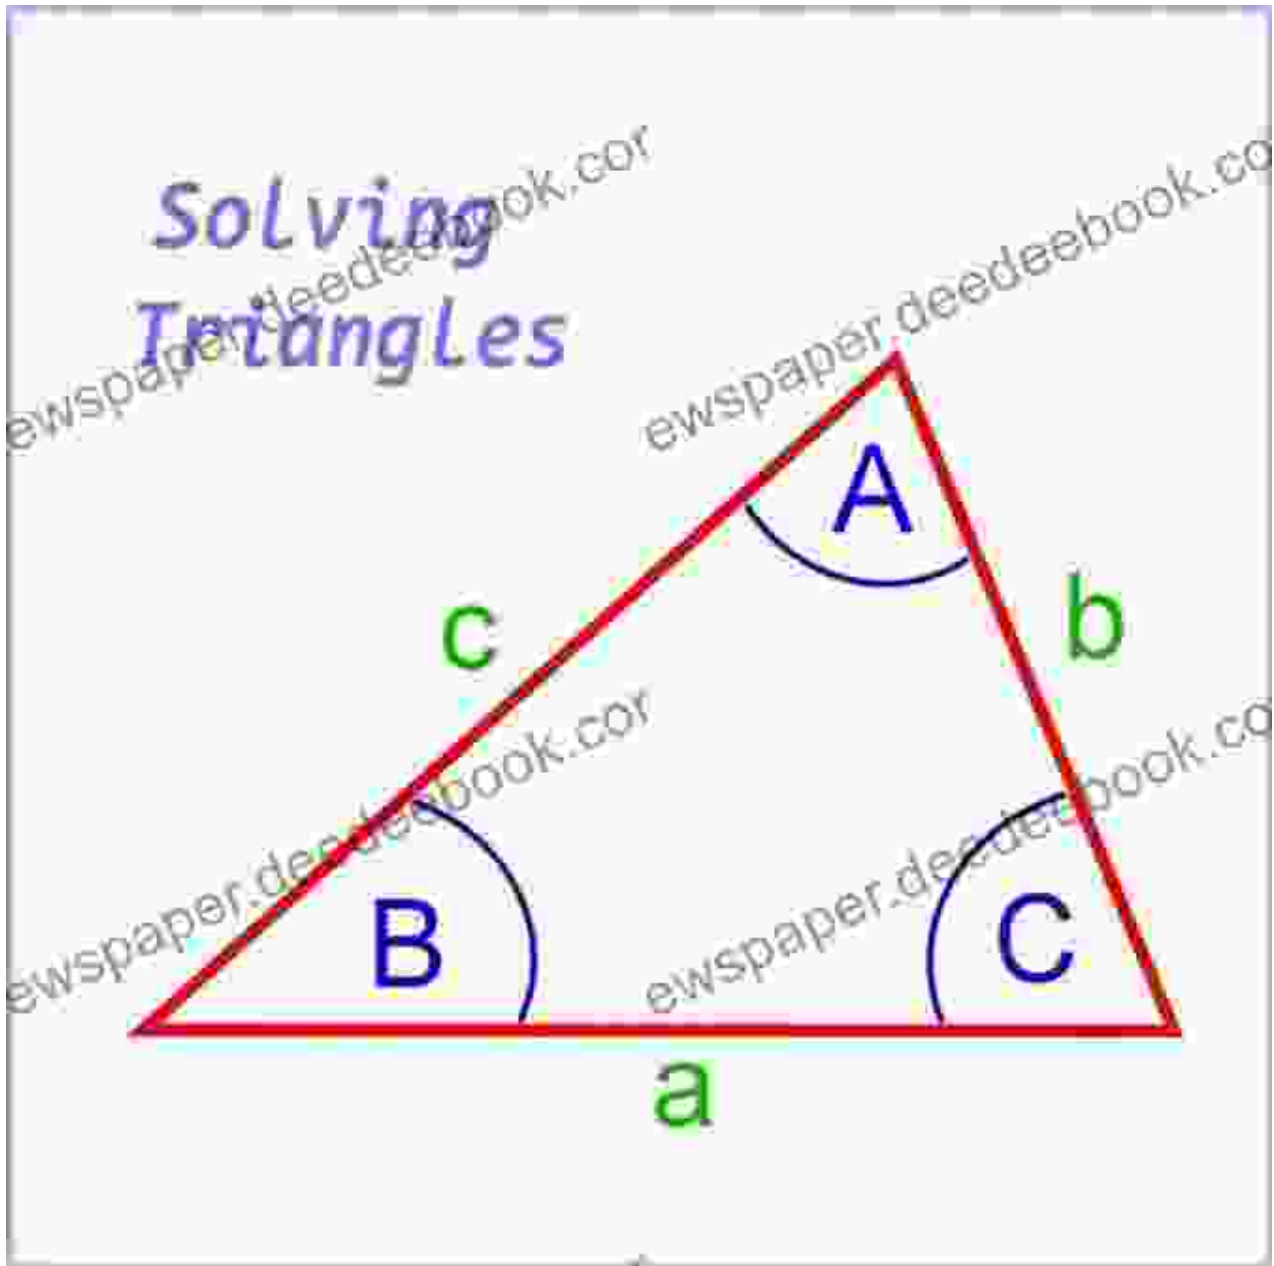

- **Square:** A square is a four-sided shape with equal sides and four right angles. It is the shape of a table, a window, or a box.

# Quadrilaterals

<p><b>Square</b></p>  <p>Four sides of equal length, four internal right angles.</p>	<p><b>Rectangle</b></p>  <p>Four internal right angles, opposite sides of equal length.</p>	<p><b>Parallelogram</b></p>  <p>Opposite sides are parallel and equal in length, opposite angles are equal.</p>	<p><b>Rhombus</b></p>  <p>All four sides are the same length, like a square that has been squashed sideways.</p>
<p><b>Trapezium (or trapezoid)</b></p>  <p>Two sides are parallel. Side lengths and angles are not equal.</p>	<p><b>Isosceles Trapezium (or trapezoid)</b></p>  <p>Two sides are parallel and base angles are equal, non-parallel sides are equal length.</p>	<p><b>Kite</b></p>  <p>Two pairs of adjacent sides are of equal length; the shape has an axis of symmetry.</p>	<p><b>Irregular Quadrilateral</b></p>  <p>No sides are equal in length and no internal angles are the same.</p>

- **Oval:** An oval is a shape that is like a circle, but it is longer than it is wide. It is the shape of an egg, a football, or a racetrack.

- **Star:** A star is a shape with five points. It is the shape of a star in the sky, a starfish, or a Christmas ornament.

- **Heart:** A heart is a shape that is like a triangle, but it is wider at the bottom than it is at the top. It is the shape of a heart, a Valentine's Day card, or a candy.

## Shape Activities for Kids

There are many fun activities that you can do with your child to help them learn about shapes.

- **Shape Hunt:** Go on a shape hunt around your house or neighborhood. See how many different shapes you can find.

- **Shape Matching:** Cut out different shapes from construction paper or magazines. Have your child match the shapes together.
- **Shape Sorting:** Collect a variety of objects with different shapes. Have your child sort the objects by shape.
- **Shape Drawing:** Have your child draw different shapes on paper. You can use crayons, markers, or paint.
- **Shape Songs and Games:** There are many fun songs and games that can help your child learn about shapes.

Learning about shapes is a fun and important part of a child's development. By introducing your child to different shapes in a fun and engaging way, you can help them develop their 認知能力, problem-solving skills, and creativity.
