Volume I: The Imperial Experience

The inaugural volume of the series, "The Imperial Experience," sets the stage by exploring the fundamental concepts and theories surrounding empire. Renowned scholars examine the various forms of imperialism, their motivations, and the experiences of both colonizers and colonized peoples. Key themes include the construction of imperial ideologies, the dynamics of power and resistance, and the cultural exchanges and transformations that occurred within imperial contexts.

Volumes II-V: Regional Histories

The subsequent four volumes focus on specific regions of the world, delving into the unique histories and characteristics of empires within each area:

* Volume II: The Americas and Empires (1492-1900) * Volume III: Europe and Empires (1500-1900) * Volume IV: Africa and Empires (1500-1900) * Volume V: Asia and Empires (1200-1900)

These volumes provide detailed accounts of the establishment, expansion, and eventual decline of empires in each region, examining their interactions with indigenous societies, the economic and political systems they imposed, and the social and cultural transformations they brought about.

Volume VI: Empire and Modernity

The concluding volume of the series, "Empire and Modernity," explores the complex relationship between empire and modernity. It examines the ways in which empires shaped the development of modern nation-states, capitalism, and global governance. It also investigates the legacies of empire in the postcolonial world, including the ongoing debates over neocolonialism and globalization.
